## LOCALITY REVERSALS

If it so happens that Dempsey and Carpenter are to meet again in England there is always a chance that one of those climatic reversals will at least give the latter a better chance than he ever had over here.

There have been some remarkable upsets in this respect. Take the case of Mrs. Mallory over there and Miss Lenglen over here.

Take the case of the American golf team in England, with Tolley, Hope and Wethered over here.

Or one might recall what has happened to Evans, Travers and Olmsted on various visits across.

Upsets develop much more quickly, mentally and physically, when one is cast in strange surroundings and a different climate.

"Our athletes will never reach their top form in your country, and your athletes will never be at their best over here," Lord Northcliffe remarked last May while the British amateur championship was under way with Jones, Gurnet, Egan, etc., skidding quickly from the field.

## THE CAUSE OF BAD GOLF

There have been various causes assigned to the average American's poor play in the few ranking stars.

Various psychic reasons have been offered that have to do with too much self-consciousness and with lack of mental poise.

These reasons play their parts. But the main cause of ragged golf among the multitudes at large is due to the fact that such a large percentage failed to take up the game in the pliant days of youth.

Golf has come with its big rush over here through the last ten years and in coming has caused the thousands who were twenty-five or over.

How versatile would the average citizen be at baseball if he failed to take up the game until after twenty-five or thirty.

In Great Britain the general average is higher because most of them started young, as kids take to baseball over here.

Good golfers can be developed among those who have taken up the

game after thirty—but the number is comparatively small.

From those who started young we draw Travers, Evans, Olmsted, Jones, Gardner, Gullford, Sweetser, Knepper, Kirby, Hunter, Fowkes, Wright, Marsday, Manion, Bockencamp—in fact, most of the stars, with Walter J. Travis the most notable exception.

## MY OLD KENTUCKY HOME

(As sung by Man o' War)

Oh, the sun shines bright on my old Kentucky home,

But Morvich is now the country's best.

And I miss each day the bridle flecked with foam,

And the big field waiting at the post.

Oh, I long to hear the thud upon the track,

As I ramble by the judges' lofty nook;

Just to feel once more old Kummer on my back.

With the odds one to eighty in the book.

Getting Russia and Johnny Kilbane to sign on the dotted line are among the top achievements in diplomacy.

In training for Harry Greb, we suggest that Gene Tunney spar three rounds each day with a windmill and then wind up with an electric fan with twenty boxing gloves attached.

Pittsburgher can start a punch from more directions than a cross between a centipede and a mule. In ducking one you flop into three more.

If Carpenter knocks out Lewis abruptly, after stowing away Beckett and Wells, England's last hope seems to be Lloyd George, who has weathered more storms than the Frenchman ever thought of stirring up.

Another cause of bad golf is this: There are only one or two right ways to make a stroke and forty or fifty wrong ways. The law of average is more than the normal duffer can face without being totally wrecked.

If Carpenter knocks out Lewis abruptly, after stowing away Beckett and Wells, England's last hope seems to be Lloyd George, who has weathered more storms than the Frenchman ever thought of stirring up.

If "Babe" Ruth leads the home run contingent again this season it might be just as well to keep him in the stall until July Fourth for the campaign of 1923. Or make him bat an iron ball with a rubber bat.

and sportsman, would leave for Paris next Sunday to attend a meeting of the International Olympic games committee.

Mr. Garland who is president of the Los Angeles Athletic club and one of the three American members on the executive committee of the International Olympic association intends to lay before the committee an invitation to hold either the 1924 or 1928 Olympic here.

However, as it is practically assured that the 1924 games will be staged in Paris, Mr. Garland will devote most of his energies in trying to land the 1928 event.

He will carry with him the plans of the new stadium, which is nearing completion here, as an argument in behalf of Los Angeles.

The stadium will represent an outlay of more than \$400,000 and will have a seating capacity of 75,000.

# NO WAR TAX

Effective May 8, 1922, the Excise Tax on United States Tires for passenger cars, both casings and tubes, is absorbed by the makers and is not added to the selling price. United States Rubber Company.

## Never before could you get so much tire worth for \$10.90

AR-OWNERS who bought a 30 x 3 1/2 "Usco" for \$10.90 last Fall have discovered this by now—

Nobody before ever got so much tire value in the neighborhood of ten dollars.

They never had to question the quality—with the makers of U. S. Royal Cords behind it.

They couldn't help admiring the price—spontaneously made to meet the new economy times.

Today a number of other 30 x 3 1/2 tires have come into the popular \$10.90 price range originally established by "Usco."

So it might be well to remember

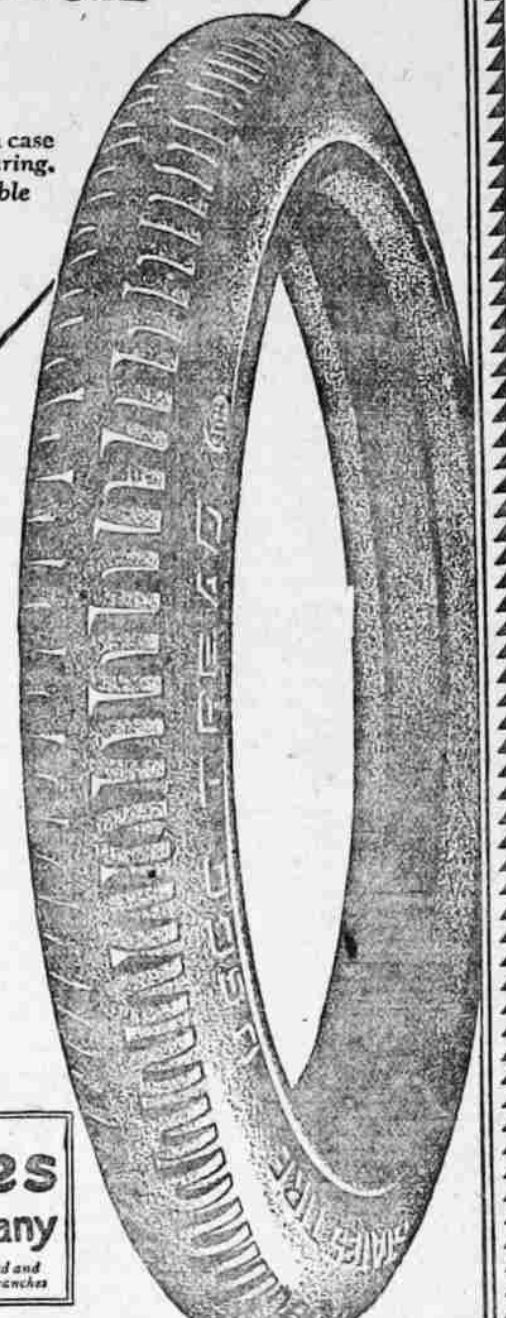

just what the "Usco" Tire is in case you are in the habit of comparing.

In "Usco" you get responsible quality.

\$10.90 is today's price. But the quality was fixed long ago—the same "Usco" performance tire users have been buying and using and buying again for years.

A tire that would be high value at more than \$10.90.

At \$10.90 it is unapproached.

First to establish the new popular price \$10.90

# IF THIS PLAY COMES UP

Here's Your Decision

If a substitute player is sent into the game as a pinch hitter or fielder, and the player fails to inform the umpire of his entry into the game, he immediately replaces in the lineup the player for whom he is substituting, and any play made by such unannounced substitute shall be legal in all leagues under organized baseball a fine of \$25 is imposed against the team that so offends.

## LEWIS-CARPENTIER ARGUMENTS SETTLED

LONDON, May 10.—(By The Associated Press.)—The fight between George Carpentier and Ted (Kid) Lewis in the Black Friars road arena next Thursday evening is exciting such great interest that the managers of the project have been compelled to increase the seating accommodations to a large extent.

There has been considerable quibbling between the managers of the fighters, but all of the difficulties now have been satisfactorily overcome. Lewis had been accused of being desirous to wear a "shock absorber" in the nature of a rubber tooth-protector.

This he has shown to the people of the Carpentier camp, and Carpentier, finding that it was not so formidable an affair as had been rumored, has withdrawn his objection to it.

There still is some mystery about the weights of both men. Francois Desamps claims that Carpentier tips the scales at 165 pounds but there is a tendency in sporting circles to believe that the light-heavyweight champion will raise the beam around 175 pounds. It is expected that Lewis will weigh in at about 154 pounds.
